One Day at a Time

Looking back upon the life I've been living
Thinking 'bout the troubles I've known
Well I wouldn't change one damn thing
It would be a sin
I've already made my choices on my own

Well you wonder if things could have been a little different
If you'd taken another turn somewhere down the line
Well it all seems simple to me
You gotta take things individually
Yeah you got to live it one day at a time

It's a crazy world that we live in
Things keep changing just as you will find
It's a lesson learned and not forgotten
Yeah you got to live it one day at a time
Yeah you got to live it one day at a time

LEAD

So take some time to stop and smell the roses
And listen to the birds sing as if in rhyme
Well it's always wise to take things in small doses
Yeah you got to live it one day at a time

It's a crazy world that we live in
Things keep changing just as you will find
It's a lesson learned and not forgotten
Yeah you got to live it one day at a time
Yeah you got to live it one day at a time
