

No Secrets

© 2015 Bob Sturgill - BMI

People say things about you
And those people say things about me
But we both just ignore the rumors
'Cause ya know that we really don't care
'Cause we know that there's no secrets there

No secrets between us
There's nothing we need to hide
No secrets between us
We're standing side by side

LEAD

We have been friends for a long time
Seen the best and the worst times go by
We stick together, friendship's a treasure
And you know that we really do care
'Cause we know that there's no secrets there

No secrets between us
There's nothing we need to hide
No secrets between us
We're standing side by side

No secrets between us
There's nothing we need to hide
No secrets between us
We're standing side by side
We're standing side by side
We're standing side by side
