

Someone Like You

© 2015 Bob Sturgill - BMI

There's a place I've been searching for
It lingers softly in my dreams
I'm running fast it stays out of reach
Or is it just the way it seems

It's a world so serene and calm
And the sky is always blue
And when I get there I'll know right away
If there is someone there
If there is someone there
If there is someone there like you

Do Do Do.....

Will the good Lord ever find a way
To let me live like that some day
And when I get there I'll know right away
If there is someone there
If there is someone there
If there is someone there like you

LEAD

And when I get there I'll know right away
There's nothing else I'll need to do
I'll have a big smile fixed on my face
If there is someone there
If there is someone there
If there is someone there like you

Do Do Do.....

Will the good Lord ever find a way
To let me live like that some day
And when I get there I'll know right away
If there is someone there
If there is someone there
If there is someone there like you
